

What you'll need to get started:

- You will need **one** of the following:
 - Your Aflac **policy or certificate number** that you received in the mail from Aflac.
 - Your **Member ID** located on your Dental and Vision ID card you received in the mail from Aflac Benefits Solutions.
 - Your **Social Security number and mobile phone number** (select this option if you elected to receive your policy electronically at enrollment, since you will not receive your policy number until after you register).
- Your **date of birth and 5-digit zip code**. Make sure your date of birth, zip code and name match what you used at enrollment (for example, Michael vs. Mike for first name). We'll use this to verify your coverage.

How to register your Aflac account:

1. Go to aflac.com/login.
2. Select **Register**.
3. Follow the on-screen instructions.
4. Activate your account by clicking the **Confirm Registration link** in the **verification email you received**.

You are all set up and can now login to your account.
